# Keno Game Guide

## Your chance to win over \$1 million every 3 minutes

Keno gives you the chance to win over \$1 million every 3 minutes by simply picking numbers you think will be drawn from the Keno ball draw. The more numbers you match, the more you can win.

## Play and match your numbers to win

Pick how many numbers you'd like to play, ranging from 1 to 40. 20 numbers are drawn from the 80 available on the Keno game grid.

Match the numbers you play to the numbers drawn for your chance to win over \$1 million.

You can play Keno for one game or over multiple games. The more games you play, the greater chance you have of winning!

## Don't match all your numbers? You could still be a winner!

Keno gives everyone the chance to be a winner. Even when you don't match all of your numbers, you could still be in with a chance to win a prize.

### How to win over \$1 million

To win the \$1 million jackpot, you must win the 10 Spot jackpot. To win the 10 Spot, play 10 numbers and match all of these numbers.

## Ways to play Keno

There are many ways to win, with a range of Keno games to play.

### classic

A chance to win instant cash or play for \$1 million for just \$1.

### MEGA MILLIONS

\$2 can win you \$5 million. Play for a chance at life changing wins.

### Heads or Tails

Take a chance at doubling your money by picking Heads or Tails. Or try quadrupling your money by picking Evens.

### kwikpik

The easy way to play. Select from a set of pre-packaged tickets for more chances to win.

### advanced

Play an advanced game with multiple spot types on one ticket.

# Keno Classic

# Keno Advanced

More chances to win  
on one ticket.

Simply grab a Keno Advanced game card for more chances to win! Play 2 or more different combinations on one ticket. Keno Advanced is available to play on **Keno Mega Millions** and **Keno Classic**.

Combinations are created by combining groups of numbers. To do this, simply mark your first group of numbers with the letter **A** (instead of the usual cross).

The second group of numbers is then marked with a **B**, the third with a **C** and so on. Just remember, you can't use the same number in more than one group.

Each combination represents one single entry. It is the amount of numbers correctly matched in each combination that determines your prize, not the total amount of numbers matched on the ticket.

## Know your odds

Keno is conducted under a licence issued by the State and as such, must comply with the appropriate legislation governing the operation of the game. Players must be at least 18 years of age to participate in a game of Keno. Total ticket value must equal at least \$1, or \$2 for Keno Mega Millions.

Keno Agents have set payout limits, which determine the amount of Keno winnings to be paid as cash to the customer, with any balance paid via cheque.

Game results are available from the Keno Agent or online at keno.com.au. Please also check the Keno game screens available at all Keno Agents for game results.

When a ticket is presented for payment on the day of purchase, any outstanding unplayed games will be cancelled and refunded.

Winnings are paid on the presentation of the printed receipt ticket only. It is your responsibility to check your Keno ticket for completeness and accuracy before the commencement of the game as the payment of wins is based upon the numbers on the printed receipt ticket. The Keno operator is not liable for a player's failure to check their Keno receipt ticket.

## What are your jackpot chances?

On games where you're playing 7 to 10 numbers, you're playing to win a jackpot. If every number you choose comes up, you'll win the jackpot. The jackpots increase with each game until they are won. Check out Keno game screens for current jackpot amounts.
